Math Plus Tutors inspires success by tackling learning challenges! Our team will work with you, your child and school to build strong and long-lasting relationships to ensure successful learning experiences. Our local tutors specialize in mathematics, science, technology and English – the building blocks of education. At Math Plus Tutors we believe in fostering knowledge and confidence in children, youth and young adults, improving the lives of many families every day. Math Plus Tutors employs certified teachers and highly qualified professionals in their fields of expertise. We care about our clients and our staff safety and wellbeing; our business applies health and safety protocols to insure cleanliness and reduce the risk of spreading infections. Our operation is insured with a \$5M general commercial liability policy that covers all those involved. We believe that it takes two to achieve academic success: a good teacher and a student eager to learn. We endeavour to be the good teachers and ask students to fulfil their part. *Welcome to Math Plus Tutors; a unique learning experience!*
