CCC - Themes 2023

#1 Discover the Creativity Within

When you feel burned out by the noise of social media, show up in a way that feels good to you and learn how to add flow and creativity to your day. This is where we go deeper with meditation to get our creative juices flowing, relieve stress, and disconnect from the world around us. This is where we can tap into our inner self where creativity just happens.

#2 Make it Personal

You will be learning about creative exercises designed to reinvigorate your creative practices and explore the elements and principles of design. The intention behind this class is not to produce finished works of arts. We will be focused on play, and experimentation to find out what kind of creative artist you are.

#3 Creative Business with Heart

Now that you have some type of idea what kind of artist and creative person you are and your preferred medium, this is the time that you can put together the skills that you have learned along with your natural talents and begin a creative project.

#4 The Power of Play

This is where you learn where inspiration comes from , how to create colour palettes and how to use design and space to create beautiful compositions no matter what surface you choose to create on.

#5 Let Go - Making Peace with The Inner Critic

This is where you learn to really let go and trust yourself and discover that happy accidents (the elements that you did not control) can be your best friend and create that special unique parts in your creative project.

#6 The Business Side of Creativity

You will be able to create a beautiful work of art for yourself, but what about friends and family. Maybe even taking it to the next level where you can collect cash for your creativity.
